1) Dial Up to the internet and goto www.klsedaily.com Login with your login name and password straight away.

Or goto **Memberzone** ---> **Download Data**

2) Goto your particular month of interest and highlight the date of the data files you need . right click of your mouse to

Save Target As... into C:\klsedaily i.e. C:\KLSEdaily\klse_08_08_02.txt

3) Open the Downloader 7.22 and follow exactly belows:

a. goto **tools** ---> **Convert**

b. make the setting as

Source File types :**ASCII** and follow step 2 of Downloader Installation (exactly as from step 2a to 2f)

c. *Source Folder* : C:\KLSEdaily

Source File names : "**klse_08_08_02.txt**" or "**w_02_09_02**" for example

(You can put maximum of 10 files at one time !)

d. *Destination File types*:**Metastock**

Destination Folder **C:\KLSE**

e. Click **OK** (Update will only take less than 3 minutes per KLSEdaily.COM data file)

4) At this moment, you are ready to do your Stock Analysis. Try out your Metastock softw now.

5) Check up any new Initial Public Offers, IPOs stocks on www.klsedaily.com And use the Downloader to update the Stock Codes display on the www.klsedaily.com Update periodi

for consistency is needed.

TIPS

▶ You do Not need to delete those spurious folders (c:\KLSE\1, C:\KLSE\2 ...etc) which v be created during data updating process. That is because some unknown data created. However you can delete these folders anytime, as you like. Please take note that some particular stock i.e. 3A is still residing at folder c:\KLSE\3.
